# New freedom

'I bring a new freedom to the design of waiting and reception rooms. I am a dividing wall and seating in one. With my integrated design, I free up the floor completely. My upholstery is not only comfortable, it also dampens sound.'

*Discover my many dimensions!*

## SmartElements®

PART OF MAARS LIVING OPTIONS

INTEGRATED MODULAR DESIGN

## Ultimate flexibility

SmartElements is ideal for waiting and reception rooms in offices, hospitals, schools, airports and more. SmartElements saves space and leaves the entire floor free for mechanical cleaning. With this highly flexible concept, you can put together seating entirely according to your own requirements by combining:

- Chairs or sofas with or without armrests
- Chairs or sofas with side tables
- Magnetic, sound absorbing backrests/wall panels

*You also have a very extensive choice of materials and colours.*

# Anything is possible

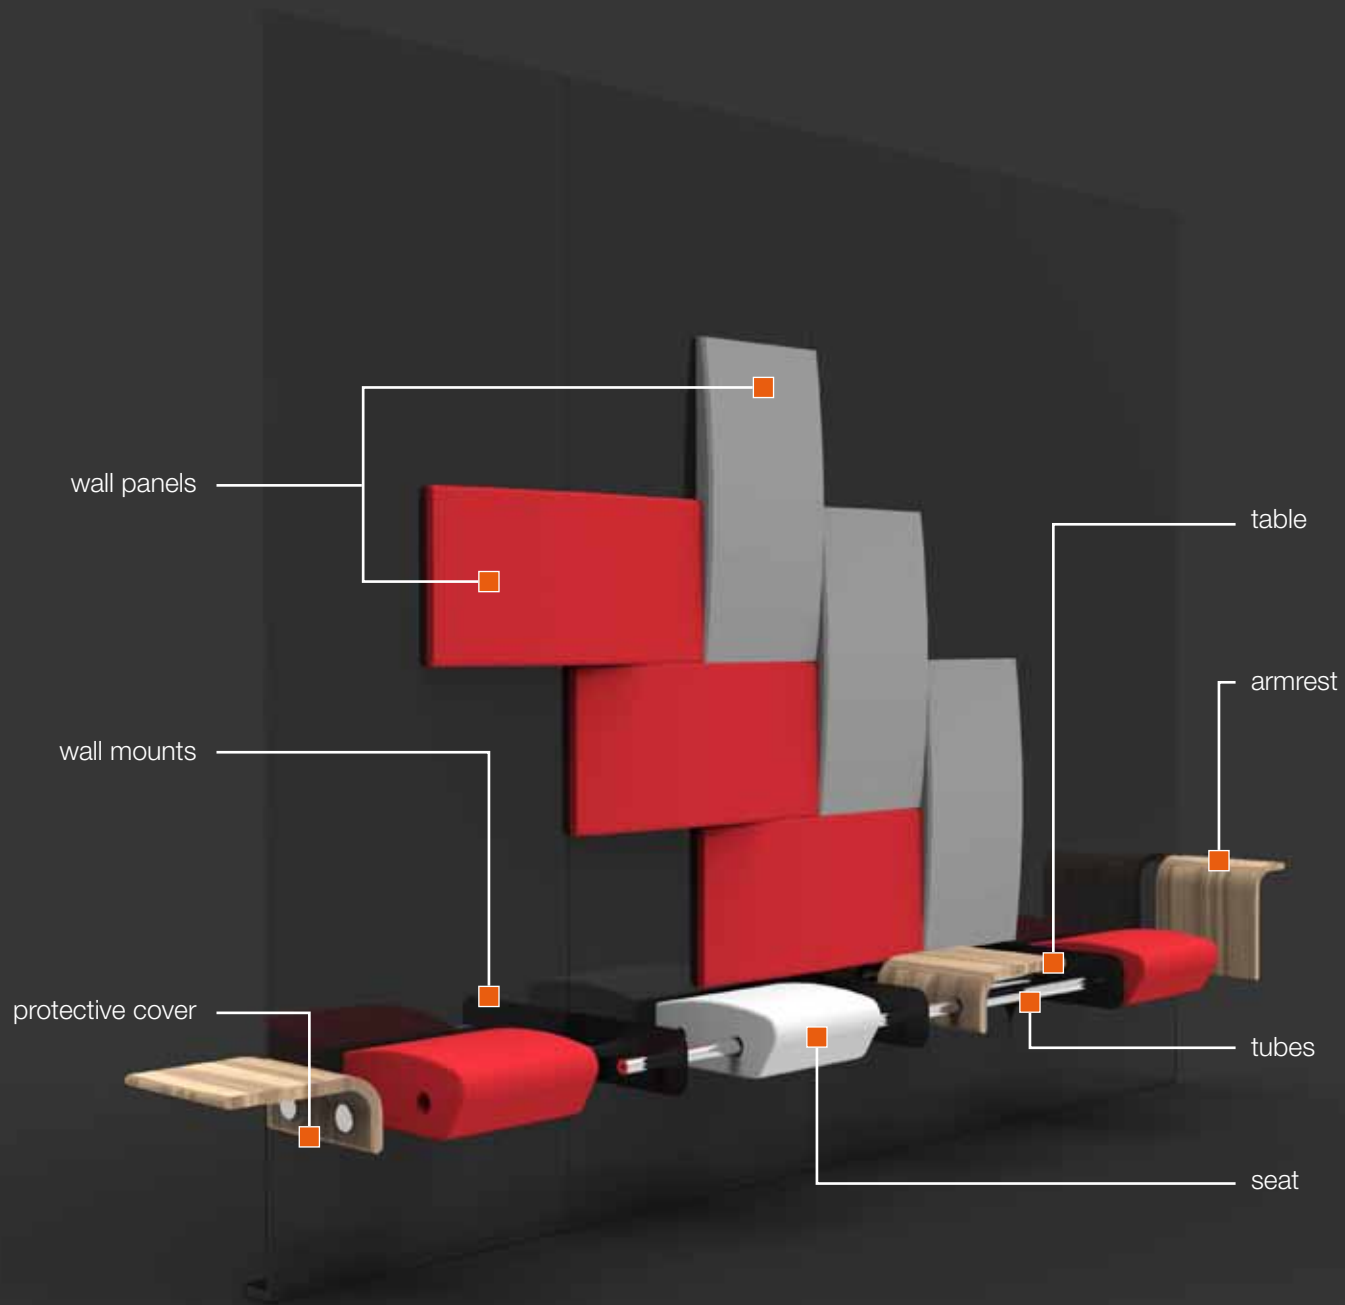

# Solid unity

*Wall and sides form a stable unit with excellent properties:*

- Robust construction
- All static forces are absorbed by the wall
- Fully moveable and modular in terms of both height and width
- May be used on Maars steel, melamine and glass partition walls

INNOVATIVE CONSTRUCTION

INTEGRATED ACOUSTIC ABSORPTION

As well as offering ergonomic, comfortable seating and being visually attractive, SmartElements provides excellent sound absorption properties. This is a result of the combination of wall and seat:

- Seats made from an open, sound absorbing material
- **Magnetic**, sound absorbing wall panels, which also serve as backrests
- Panels are easy to install and extend at a later date

# Sound absorption
